AJ Ross Creative Media, Inc. is a full service advertising, marketing and design company that provides product/brand positioning, marketing strategy and creative development for internet presence for a wide range of clients.

The Internet is a "must" medium for providing information and profiling your organization. Your website address should be included on all the correspondence and marketing materials that are created for you. Our team of web designers and developers will work with you closely to create a site sculpted specifically for your company's needs and personality. Our sites are visually appealing, easy to maneuver in, and profile the type of information consumers are interested in. We also can advise you on getting top positioning on widely used search engines.

We are very proud of our work and hope you enjoy viewing it. Whether you need a new web site or just some expert advice, give us the opportunity to give you our best. **We work with you and for you. It's just like having your own web marketing staff.**

Just go to www.ajross.com to see our work. Then call me personally at 1.800.723.4644.

Sincerely,

Allan J. Ross
